

# MEMBERSHIP MAINTENANCE PLAN

## COST

- \$16/month - No Initiation Fee

## PROGRAM BENEFITS (ALL SERVICES)

- **Stay Informed on Savings Opportunities.** During your maintenance visits, our technician will keep you updated on any current rebates, special incentives, or ongoing programs available to help you save money and maximize the value of your system.
- **10% Discount.** You will receive a 10% discount off standard pricing for as long as your membership plan remains effective.
- **Priority Service.** Members receive priority scheduling for emergency situations, determined on a case-by-case basis.
- **Labor Matched Manufacturer Warranty.** Valid as long as your membership plan remains in good standing from initial purchase of equipment in question (on manufacturer approval), along with manufacturer maintenance requirements.
- **Special Offers.** Unlock exclusive savings and benefits with your membership!
- **Add-On Maintenance Services.** Discounted services offered if completed during scheduled maintenance visits. Examples: furnace filter changes, jetting maintenance, UV bulbs, humidifier pads, and more!
- **Comprehensive Equipment Tracking.** We will record all your home's equipment information in our system, allowing us to easily reference it during future service visits. This ensures efficient troubleshooting, personalized recommendations, and seamless service tailored to your system's history.
- **3 complimentary maintenance visits included with plan (see below).**

## HEATING & COOLING SERVICE BENEFITS

- #1 Annual Heating Tune-up.** A heating tune-up is a maintenance service performed on a home heating system, typically before the winter season. During a furnace tune-up, a trained technician inspects, cleans, and fine-tunes various components of the furnace to ensure it operates efficiently and safely. We perform heating tune-ups on furnaces, boilers, and heat pumps.
- #2 Annual A/C Tune-up.** An A/C tune-up is a routine maintenance service performed on a home cooling system, typically before the summer season. It aims to ensure that the air conditioner operates efficiently and effectively. Regular A/C tune-ups help prevent breakdowns, improve indoor comfort, reduce energy consumption, and extend the lifespan of the cooling system.

## PLUMBING SERVICE BENEFITS

- #3 Annual plumbing safety inspection.** Your peace-of-mind is our goal. We will assess your home's plumbing systems to ensure they are in a safe operating condition. You'll receive a detailed report of our findings and we'll explain any concerns. We'll alert you to potential emergencies before they become disruptive problems.

# BENEFITS OF TUNE UPS AND INSPECTIONS

## PLUMBING INSPECTION:

- Determine life expectancy of sump pump to best avoid basement flooding
- Helps avoid emergency plumbing issues down the line
- Examine home venting to ensure safe operation of appliances
- Detect potential hazards
- Discover small problems before they turn into major repairs
- Ensure that safety shut-offs are working properly and can be easily located
- Check for wasted water use (leaks, running toilets) to reduce cost of utility bills
- Provides peace of mind that your plumbing is working properly

## FURNACE/BOILER TUNE-UP:

- Fewer breakdowns
- Equipment longevity
- Lower operation costs - save money on your utility bills
- Improve the efficiency of the unit
- Detect potential carbon monoxide leaks
- Assess/Improve Indoor Air Quality
- Provides documentation of service

## AC TUNE-UP:

- Check that unit is clear of debris
- Fewer breakdowns
- Ensure fan is operating properly
- Verify the lifespan of motor that starts the unit (capacitor)
- Improve the efficiency of the unit
- Equipment longevity
- Make sure electrical connections are clean and secure
- Confirm refrigerant levels and pressure are within manufacturers parameters

## MAINTENANCE WARRANTY INFORMATION

In order to be eligible for the extended warranties provided, the maintenance plan must be current throughout the entirety of the extended warranty period.

Only products supplied and installed by Cellino Plumbing while on an active maintenance plan will be eligible for the extended warranty.

If the product or equipment installed requires manufacturer required maintenance, this must also be performed to manufacturer specification for warranty eligibility. You can find warranty information for our current products on our website [www.cellinoplumbing.com](http://www.cellinoplumbing.com).

*\*\*All fixtures, including faucets and internal toilet mechanisms are only eligible for warranties with the installation and maintenance of a proper water treatment system from Cellino Plumbing Heating & Cooling. This is because WNY carries hardness and chlorine levels above manufacturer requirements.*

*\*\*Without proper maintenance, Cellino Plumbing Heating and Cooling will provide up to 1 year labor warranty on equipment.*

*\*\*No warranties protect against "an act of God."*

*10% discount does not apply to HVAC maintenance or any dispatch fees.*

*Non-Transferrable*

*This is a recurring monthly charge. Pricing is subject to change at any time.*
